

bathrooms *to love*

brought to you exclusively by our bathroom specialists

Stylish and practical

Ensure the morning routine runs smoothly with everything in its place and easy to find. It's easy to maintain a sense of order and maximise limited space with clever design and innovative storage furniture.

Bathrooms have evolved!

After the living room and kitchen, your bathroom is the most visited room by guests to your home. Over time, more and more attention has been given to bathroom design, and today, the creative solutions and choices available for furniture, sanitaryware, taps, showering and accessories, makes designing your perfect bathroom achievable and a real labour of love!

Get inspired

Achieve your own look with the perfect style combination. With some simple choices and a little imagination, stepping into your bathroom can feel like stepping into another world.

Personalise your space

By thinking about the details you can enhance the whole look of your bathroom. Add your own personal style with your choice of wall art, seating, fixtures and fittings.

Create a spa-like feel

Your bathroom is a sanctuary, a place to rest and rejuvenate. With clever lighting you can create an ambience of peaceful calm – put your favourite music on, light a scented candle, add a splash of luxury bubble bath and relax!

"We always think about how a suite will combine with the rest of the room to achieve a complete style aesthetic throughout."

Brought to you exclusively by our
SUITES SPECIALISTS

Style setting *Suites*

The shape of your suite sets the style for the rest of your bathroom, so it's important to consider what look & feel you want overall when choosing. We have sizes to suit large bathrooms or small cloakrooms and shapes that match all the popular styles.

Find your ideal washbowl design

We have a range of washbowl designs that will make a great style statement, whether you choose one with strong angular lines, or with soft edges, or in a contemporary design or a more classic look.

Why not go rimless?

Currently a hot trend, rimless toilets offer a seamless sleek look and benefit from being more hygienic than a rim. With a slightly higher seat they are considered more comfortable too, especially for taller people.

Creating a sense of space

Wall mounted WCs are increasingly popular, as they not only provide a stylish design option, but also create the illusion of extra space, ideal for smaller rooms. Easy access all around the pan also makes them very easy to clean.

the *Suites* collection

Stylish suites, all with a Lifetime Guarantee

Our suite collection has something for every taste, from the popular Contemporary designs, to the traditional Classic styles.

All our suites undergo a comprehensive Quality Assurance testing process to ensure your suite will last as long as you want it to, all backed by our Lifetime Guarantee.

A timeless classic

Melissa (page 66)

Traditional with a modern twist

BACK TO WALL (*Top Image*)

SEMI RECESSED BASIN (*Centre Image*)

FULLY SHROUDED (*Bottom Image*)

CLOSE COUPLED WC (*Left Image*)

How to choose the *right suite options for you*

Close Coupled WC

A close coupled WC has the cistern resting directly on top of the pan towards the rear.

Space Saving

Designed for small spaces, space saving suites take up less room than standard.

Back to Wall WC

A back to wall WC has the concealed cistern hidden behind a wall or fitted furniture.

Full Pedestal

The most popular choice, a full pedestal hides all the pipework whilst supporting the basin.

Wall Mounted WC

The pan is held off the ground by a hidden supporting frame and, as with a back to wall WC, the cistern is hidden.

Semi Pedestal

Increasingly popular, a semi pedestal sits under the basin and hangs from the wall, freeing up floor space below it.

Rimless WC

Rimless WCs are easier to clean as they flush without needing a rim.

Semi Recessed Basin

Designed to be mounted into a work surface or furniture, the front of the basin protrudes forward, whilst the rear part is recessed.

Fully Shrouded

The waste pipe and water inlet are fully shrouded within the ceramic, the toilet sits flush against the wall.

Countertop Wash Bowl

Designed to sit on top of a work surface or furniture unit.

Soft Close Seat

The soft close function ensures that the seat and lid close slowly without banging against the pan, reducing noise and risk of damage.

Comfort Pans

Set at a 450mm height or more, Comfort Pans provide added comfort, especially for taller people or the elderly.

WRAS Approved Product

All of our cistern fittings are WRAS approved ensuring they comply with the latest water standards.

“One of the best style tips for making the most of your bathroom furniture is to use integrated lighting to create a soft ambience”

Brought to you exclusively by our
FURNITURE SPECIALISTS

Redefining *furniture*

Bathroom furniture provides all the benefits of useful storage as well as a great way to design and style your bathroom. Whether it's fully fitted, wall mounted or floor standing, we have really attractive ranges for you to choose from.

Colour & texture trends

There is a trend for more earthy shades of grey (or 'greige') right now, with names also influenced by the external environment, such as 'light concrete' or 'dark stone'. A high gloss finish remains popular, alongside silk, matt and textured.

bathrooms *to love*
FURNITURE

Everything in its place

Planning your storage requirements in advance is a good way of ensuring everything has its place to keep your bathroom clutter-free. Our drawer accessory packs help keep your bottles upright and ensure all items have a rightful place.

A lighter touch

It's now much easier to create a soft ambience for a more relaxing bathing experience with integrated furniture lighting, whilst retaining full ceiling lights for your everyday use.

What is done in love is done well.

the *furniture* collection

For the latest look in bathroom design

Our furniture ranges are arranged in three groups, based on whether they are wall mounted, floor standing or fully fitted, to make it easy for you to find the perfect solution for your bathroom.

Wall Mounted

New *Perla* (page 74)

Sophisticated 'framed' style design with luxury feel push-to-open inset doors.

New *Serena* (page 80)

Clean lines and neutral tones on a slab door with a modern chrome handle.

Wall Mounted & Floor Standing

Carino (page 86)

Fully handleless doors on smaller units, for a 'step-style' layout of sleek beauty.

Bello (page 94)

High gloss doors with an integrated handle, giving a minimalist chic look.

Complementing Ceramics (page 132)

Finish your furniture with our complete range of complementing ceramics.

Floor Standing

New *Volta* (page 102)

A stylish slab door & sleek metal bar handle; great option for smaller budgets.

Fitted

Fresco (page 108)

Our bestselling and most versatile range, giving you so many design possibilities.

New

Perla

Wall mounted furniture

This inspirational new furniture range is really on-trend, with a framed look inset drawer and door design, and a silky matt, or textured 'real feel' wood finish which offers a tactile and luxurious feel.

The beautiful simplicity of this design is carried through to the delicate push-to-open door mechanism and metal drawer boxes, engineered to a very high quality, and the attractive, durable matching cabinets. Choose from a sit on washbowl or a sit in basin to complete the look.

*Push to open
drawers & doors*

*The optional integrated
lighting & motion sensor
is ideal for mood lighting.*

*Drawer accessory pack
& liners help keep your
bathroom organised and tidy*

Framed effect is on-trend and stylish

BATH SPECIALISTS

Beautiful *Baths*

There has never before been so much choice and versatility with baths, and you no longer have to choose between practicality or style, as now, with our latest range, it's so easy to have both!

Monochrome style

As an alternative to the mainstay white bath, the current trend is for a black and white contrast, which make a bold design statement. Also see our complementary black tap and radiator.

Best of both worlds

If you have limited space our attractive shower baths, combined with a bath screen, give you a great alternative to a separate shower enclosure.

Affordable luxury

Most people dream of having a luxurious freestanding bath in their bathroom. Our new affordable range now makes that dream possible.

Freestanding baths

Our collection of Freestanding Baths offers a wealth of styles and sizes to choose from. Whether your taste is traditional or more modern, we have the Freestanding Bath to create something a little more special enabling you to create the bathroom of your dreams.

Escape, indulge and relax with wellness

Why Wellness?

Why not? Wellness Bathing Systems turn your boring bathroom into a sensual spa. An ideal way to relax after a busy day, before a party or just to escape when the kids are in bed - Wellness Bathing Systems allow you to indulge in a luxury experience without even leaving the house. And they're packed with health benefits too, so you can splash out on the system of your choice without feeling guilty. Which is perfect. With a dedicated aftercare service this ensures to give you total peace of mind.

And... It's good for you!

Wellness Systems make you feel good from the inside out. In fact, taking some time to kick back in a bath fitted with a Wellness system could help reduce the effects of stress, counteract tension, improve circulation and reduce the heart rate. It also helps remove toxins, cleanses and tones the skin, and relieves tired, aching muscles. Take it from us, once you've tried Wellness, you'll never go back!

Scan the QR code with your smart phone to find out more.

Wellness Systems

**WELLNESS 6 JET
 WHIRLPOOL SYSTEM**

ADD **£550**

Features:

- 6 chrome effect variable jets
- Chrome effect dual controls
- Includes pre-fitted waste and overflow

This system cannot be used on baths with wood panels.

Look out for this symbol against the baths on the following pages. It denotes that the Wellness Whirlpool System is available.

Jets feed water into the bath as pressure creating a range of massages from relaxing to sports hydro-massage.

**WELLNESS 8 JET
 WHIRLPOOL SYSTEM WITH
 MULTI-COLOURED LIGHT**

ADD **£798**

Features:

- 8 chrome effect variable jets
- Single LED colour changing light
- 7 soothing colours to choose from
- Includes pre-fitted waste and overflow

This system cannot be used on baths with wood panels.

Look out for this symbol against the baths on the following pages. It denotes that the Wellness Whirlpool System is available.

Jets feed water into the bath as pressure creating a range of massages from relaxing to sports hydro-massage.

Red White Blue Green Yellow Purple Light Blue

**WELLNESS 12 JET
 AIR SPA**

ADD **£600**

Features:

- 12 air jets positioned in base
- Ultra quiet blower
- Includes pre-fitted waste and overflow

Look out for this symbol against the baths on the following pages. It denotes that the Wellness Whirlpool System is available.

Air bubbles are released into the water producing a gentle, calming, massaging fizz.

Wellness Systems

WELLNESS 12 JET AIR SPA WITH MULTI-COLOURED LIGHT

ADD **£825**

Features:

- 12 air jets positioned in base
- Single LED colour change light
- 7 soothing colours to choose from
- Ultra quiet blower
- Includes pre-fitted waste and overflow

Look out for this symbol against the baths on the following pages. It denotes that the Airspa system with lights is available.

Air bubbles are released into the water producing a gentle, calming, massaging fizz.

WELLNESS CHROMATHERAPY SYSTEM

ADD **£1,550**

The Chromotherapy whirlpool system includes 21 chrome fixed and directional jets:

The chromotherapy system we offer comes with 7 colours: white, blue, red, light blue, yellow, green and purple. They can be set at a constant colour to match your mood or set to run through a carefully pre-selected sequence for emotional balance.

- 8 base jets
- 5 whirlpool side jets
- 6 back jets
- 2 reflexology foot jets
- Includes pre-fitted waste and overflow

A directional flow valve allows you to isolate various jets to help relaxation and focus in on certain problematic areas of the body.

1.5hp pump with a flow rate 305 litres per minute.

This system cannot be used on baths with wood panels.

Look out for this symbol against the baths on the following pages. It denotes that the Airspa system with lights is available.

WELLNESS SOUND SYSTEM - BLUE WAVE

DIBA0002 **£460**

Enjoy your favourite music with this ingenious, simple to use sound system. Self fit on its own or together with one of our wellness systems, this will work with any other device that supports bluetooth A2DP. Can be fitted to any new or any bath in situ.

Look out for this symbol against the baths on the following pages. It denotes that the Whirlpool Sound System is available.

WELLNESS CARE

DIBA0024 **£24**

Used monthly, this will ensure that your system remains free from soap, shampoo, bath oil, hair, fats and limescale. It will help prevent the growth of bacteria and unpleasant odours from your bath.

Supercast[®] Baths

What is Supercast[®]? Strength and beauty combined

Supercast[®] is a substantial reinforcement process for an acrylic bath. This reinforcement process results in each bath being incredibly strong and hard-wearing. This gives you the reminiscent assurance of an old cast iron bath with the natural warmth and quality acrylic has.

Acrylic's unique properties make it ideal for manufacturing baths. Acrylic allows itself to be moulded into many shapes giving many possibilities for varied designs, an attribute that enables baths to be manufactured with design and function working in harmony. The natural gloss is cast all the way through the acrylic resulting in a product that is smooth and ever so easy to clean.

The intensive reinforcement processes and final (green) 'flow coat' jacket to the entire underside of the bath adds strength and insulating properties. This keeps your bath water hotter for longer!

Features:

- Intensive reinforced finish to underside of acrylic bath
- Results in a strong, hard-wearing bath, with increased insulation
- Supercast[®] baths have associated strength of an old cast iron bath but with the benefits of modern material

Look out for the symbol against the baths on the following pages. It denotes that Supercast[®] is available.

Standard Acrylic Bath

Supercast[®] Acrylic Bath

SUPER STRONG

Supercast[®] reinforcement process results in a strong, hard-wearing bath

INCREASES INSULATION

Keeps your bath water hotter for longer

“Frameless enclosures are really popular as they give a stylish & sophisticated look, whilst giving the impression of using less space.”

Brought to you exclusively by our

ENCLOSURE SPECIALISTS

Step into our *Enclosures*

Shower enclosures now feature in most new bathrooms and have developed to become a main part of defining the overall style of the bathroom. With a wide range of shapes and sizes on offer, your new bathroom design will be greatly enhanced with an enclosure.

Wetroom panels still a strong trend

Wetrooms continue to be on-trend with their minimalist style and to give that spa-like feel. But it's also their suitability for accessible bathrooms that gives them a great dual benefit. Slim trays give a wet room look as a low cost alternative.

bathrooms *to love*
ENCLOSURES

Easy clean for an easier life

All our enclosures have easy clean glass which helps repel water and prevent build up of dirt and grime, making the ongoing cleaning of your enclosure much quicker and easier.

Enclosures to fit your space

Choose an enclosure shape that suits your space and preference... for example, a quadrant will sit neatly in a corner, and a bi-fold door opens without encroaching into the room (great for smaller spaces!)

SHOWER ENCLOSURES

time for *RefleXion*

*Our shower experience is
personal to us.*

For some of us it is that little piece of paradise each day.
For others it is much more functional.

Whatever your shower means to you our REFLEXION
range has been designed to provide the experience that
feels right for you.

Designed for beauty

As our bathrooms increasingly become spaces where
design and style are as important to us as function and
practicality, our REFLEXION enclosures will add a touch
of beauty to any bathroom.

Safe and strong as standard

All REFLEXION enclosures are made from high quality
materials and components to give you the ideal,
personalised shower experience for years to come.

Designed to complement your personal style

Whether you are doing a complete bathroom refit,
creating a new en-suite or updating an existing
bathroom, our enclosures are completely versatile in
their appearance, shape and size.

Frameless Wetroom Panels

REFLECTION 8 frameless

How it works

As you can see from the diagrams on the left there are many combinations that can be made.

If you wanted to make up a walk-in wetroom for an area to fit on to a 1200 x 800mm tray or floor. You pick a 700mm and a 800mm panel, which also includes the recommended 500mm minimum opening for the walk-in. So in order to build up your own ideal wetroom area just choose the panel sizes from the table below.

FEATURES

Height: 2015mm
(including rail)

8mm toughened
safety glass

Easy clean
glass coating

Suitable for both
wetroom floors
and on shower trays

Comes with 1 metre
stabilising bar which
can be cut to fit your space

Showerwall

Enclosures

A premium shower enclosure range offering style, sophistication and durability with 10mm toughened safety glass at 2000mm high.

Mershield

PROTECTIVE COATINGS

Mershield is a hydrophobic coating for glass and glass like surfaces. The Mershield coating repels water, preventing the build up of limescale and soap deposits and so makes the shower glass 'Easy to Clean'. Available on Vivid Glisten, Sublime and Boost enclosure, wetrooms and bath screens as specified.

"A good shower can provide that extra feeling of daily luxury, so why not go for the best shower you can get for your budget"

Brought to you exclusively by our
SHOWERS SPECIALISTS

Step into our Showers

Research shows that the majority of us prefer showering to bathing, and the choices now available are truly impressive. Whatever your preference, whether it's a sleek concealed mixer, a luxurious shower tower with body jets, or an easy-fit electric, our carefully selected range has something for everyone.

Easy to operate

Our latest collection of mixer showers includes a super easy push button style, so you can now enjoy a luxurious high pressure shower literally at the push of a button.

Go electric

Still a popular choice are electric showers. Design and technologies have evolved to provide a more powerful shower whilst being economical to run.

The ultimate home spa experience

Our luxury shower towers with body jets and waterfall blade showers help you affordably recreate that spa experience in your own home.

There's nothing quite like the feeling you get from having a shower.

Our range of Mixer, Electric and Power Showers offers you an outstanding choice of beautifully designed and superbly engineered styles to bring you all you need for a complete showering solution.

- Stainless steel 1.5m hose
- Minimum pressure 0.1 bar

Mixer showers

These connect to the hot and cold water supplies and then mix the water inside the shower to your selected temperature. Mixer showers normally deliver a higher flow rate than electric showers and are often thermostatic to protect against scalding. Ideal for homes with readily available hot water. You can also add a pump if required to boost the flow from a gravity fed system.

Cool
Touch

QUADRO COOL-TOUCH THERMOSTATIC MIXER SHOWER WITH OVERHEAD

DICM0136 **£315**

DICM0066 **£340**

- Option to fit with concealed back plate or exposed
- 3 spray pattern showerhead

The Great British Shower Company

Electric showers

These connect to the cold water mains supply.

A heating element inside the unit heats up the water as it passes through.

It doesn't rely on stored water and provides instant hot water on demand.

New

Amore

Sleek, elegant and ultra-easy to use. Clever digital touch controls plus a choice of smart finishes create a superb focal point for your bathroom.

- Crisp white digital display with temperature readout
- Sleek contemporary cover
- Touch activated power selector, on/off button and temperature control dial
- Riser kit with large 110mm 5 spray pattern handset and soap dish
- Stabilised temperature control for peace of mind
- 7 entry points for easy fitting

Electric showers

Aspirante

Four stunning finishes, natural, yet original

From the polished style of Black Gloss and White Gloss to the natural beauty of Brushed Steel, Aspirante has a finish that complements any bathroom. And with such innovative finish effects never having been seen on an electric shower before you can be sure you're giving your room a truly original look and feel.

Use it once. Know how it works

No need to memorise obscure settings and indicators. Aspirante works as beautifully as it looks. One central control does everything you need – from switching on the shower to a perfectly delayed shutdown sequence. If only everything in life was so easy.

Everything you need

Every Aspirante shower comes complete with a full shower kit: riser rail, adjustable showerhead holder, soap dish, shower hose, and a rub clean showerhead with 5 spray patterns. All you need is within the box.

Site with ease

Thanks to its discreet design, including more compact overall dimensions, Aspirante sits comfortably within any bathroom. That means you're free to design your interior with confidence.

A dream to clean

Each Aspirante shower comes with a rub-clean chrome-plated showerhead with 5 spray patterns. Along with an easy-to-clean face, keeping your shower in tip-top condition only takes a couple of wipes.

8.5kW and 9.5kW models available

A breeze to install

A swivel water inlet connection means that Aspirante is compatible with both left or right pipe entry positions. This means that you, or your installer, will find fitting a breeze.

DICE0066 - 9.5kw **£159**
DICE0068 - 10.5kw **£159**

T80Z fast fit is the very latest generation of Britain’s best selling shower, the Triton T80 has been an iconic household favourite for more than 30 years.

- Swing-fit™ - left or right side cabling
- Swivel-fit™ - 180° degree reversible water inlet providing Swivel-fit™ flexibility for new or replacement installations
- Stylish adjustable-bracket riser rail

- Push button start/stop to select your favourite shower setting every time
- Rub clean showerhead
- 5 spray patterns
- ‘Low Pressure’ indicator operates when the water pressure is insufficient
- Easy installation

Power showers

These work in the same way as a mixer shower, they connect to the hot and cold water supplies and then mix the water inside the shower. They also have the added benefit of an integral pump to boost the flow rate giving a powerful flow.

Features:

- Adjustable Maximum Temperature Stop – reduces the risk of accidentally turning the temperature too high
- Maximum flow rate of up to 14 litres per minute
- Push button start stop
- Thermostatic temperature control
- Automatic shutdown – should either the hot or cold water supplies fail
- Rub clean showerhead
- 5 spray patterns

DICM0086 **£486**

Low pressure?

With Triton's range of booster pumps you can get the power performance you demand from your shower, turn any mixer into a power shower or simply boost your low pressure flow rate.

T550I PUMP
DICA0012 **£375**

The T550i is the unit to opt for if you want to convert a mixer shower into a high flow rate 1.2 bar shower.

"There are so many options to use taps as a key part of your bathroom styling, so take your time to consider what works best for you."

Brought to you exclusively by our
TAPS SPECIALISTS

Take time for our *Taps*

*Taps are the most used item in a bathroom so it's important they are durable as well as stylish, to complement any design theme for your bathroom. Our range provides both and is backed by a 10-year guarantee.**

Black & white alternative to chrome

Although chrome taps will always look good, the current trend is for bolder alternatives such as industrial style black. For a co-ordinated or contrasting look see our complementary baths, shower towers and radiators.

*Excludes rings and seals. 3 years on valves. 10 years on body and finish.

bathrooms *to love*
TAPS

Hidden quality

Taps in our Premium Cartridge range are fitted with a longer lasting European ceramic cartridge and provide a more comfortable and ultra-smooth feel.

Get a soft spa-like water feel

A special aerator on our Pisa tap creates a beautifully textured spray pattern which feels soft to touch with a featherlight flow when washing your hands.

“Using decorative lighting as a styling accessory will help move your bathroom design beyond functional into something desirable.”

Brought to you exclusively by our
BATHROOM SPECIALISTS

Finishing Touches

With our range of accessories, from feature radiators to underfloor heating; from simple mirrors to extravagant lighting; you can easily add personality to your bathroom, whether it's flair and panache, or minimalist chic.

Adding warmth with style

A warm bathroom creates a cosy, relaxed space and now, with our latest range of radiators, you can add warmth whilst adding a design feature. Or, if you prefer, with underfloor heating you can warm the whole room and free up wall space.

Practical never looked so good

Our range of mirrors have beautiful designs and also give you some handy practical solutions, such as providing softer ambient lighting for night use, or even an option to play music through built-in bluetooth and speakers.

Plan your lighting

Lighting is one of the most important elements of your bathroom, but is often an afterthought. Consider whether you want ambient lighting, task lighting or decorative lighting and include these at the planning stage.

Enjoy dry warm towels and heat up your room too with our stylish radiators.

Whatever the size, whatever the style, we have a solution for you.

- Designed for use with central heating systems or via electricity with the option of an element kit, they make an impact in your bathroom.
- Tested to EN442 standard guarantees the finest quality.
- Look out for the below symbols on the following pages; they will help you choose the best radiator to suit you.

Central Heating

The benefit of this type of installation is that it is economical to run when the central heating is on. Suitable for use with indirect central heating systems (your plumber/installer will be able to advise the type of system you have). The radiator is fitted to your central heating system and works alongside your existing radiators.

Electric

The benefit of this type of installation is that the radiator can be installed almost anywhere and does not require any pipework. It has the added versatility of being able to be turned on and off whenever required, regardless whether the rest of your central heating is on. An electrical element kit (see page 262) with a fused spur is required and wired to your electricity supply. The electrical element is screwed directly into the radiator and heats the water.

Dual Fuel

The best of both worlds! This type of installation is plumbed with indirect central heating systems and or your electrical supply. This guarantees the low cost of a central heating system during the winter whilst ensuring the versatility of being switched on and off independently during the summer months. Central heating, electric or both - the choice is yours!

Underfloor Heating

For a more minimalist look, keep warm and discover the luxury of stepping onto a cosy warm floor with underfloor heating, which has fast become affordable and easy to install. And now with the 4iE Smart Wi Fi thermostat you can use smartphone control to ensure your home is always at the temperature you want just as you arrive, and using more efficient temperatures when you're away.

Why Aluminium?

Performance

Aluminium conducts heat five times faster than steel, making it the perfect material for radiators.

Environment

Aluminium is an extremely eco-friendly material. It can be recycled endlessly because reprocessing doesn't damage its structure. It is also the most cost-effective metal to recycle.

Lifecycle

Aluminium doesn't rust so we give a 20 year guarantee against leakage.

Undertile Heating

If you're looking for the ultimate luxury in bathroom heating, then you need look no further than our range of Warmup floor heating systems. The process is simple, there is no need to dig up your old floor. Select your heating system, decide how much you need, and choose your thermostat. Three simple steps to affordable luxury. Warmup floor heating is specifically designed for use under tiles and natural stone.

WARMUP LOOSE WIRE SYSTEM

The Warmup Loose Wire System uses an ultra-thin, dual-core heating wire that is flexible, easy to install and will not raise floor levels. This system is quick to install and has a single connection lead for fewer steps. It offers flexibility and is ideal for precise installation in irregular shaped areas.

Dual wire undertile heater 300 watt - 1.5 to 2.4m ²	DIUH0002	£185
Dual wire undertile heater 400 watt - 2.5 to 3.4m ²	DIUH0004	£215
Dual wire undertile heater 600 watt - 3.5 to 4.4m ²	DIUH0006	£310
Dual wire undertile heater 800 watt - 4.5 to 5.9m ²	DIUH0008	£399

Warmup

The world's **best-selling** floor heating brand™

WARMUP STICKYMAT

The Warmup StickyMat consists of a thin loose wire evenly spaced and taped to sturdy glassfibre mesh with pressure sensitive adhesive. It allows for the fastest and most secure installation of electric underfloor heating. Simply roll out a length, cut, flip and stick down the mesh until the floor area is covered. It is perfect for evenly heating large or regular-shaped rooms.

150 watt undertile sticky heating mat 1m ²	DIAC0022	£145
150 watt undertile sticky heating mat 2m ²	DIAC0024	£210
150 watt undertile sticky heating mat 3m ²	DIAC0026	£290
150 watt undertile sticky heating mat 4m ²	DIAC0028	£365

3iE ENERGY-MONITOR THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Classic Cream DIUH0010 **£215**
- Piano Black DIUH0012 **£215**

The world's first fully interactive, touch technology, energy-monitor thermostat features an easy-to-use interface, eliminating complicated instruction manuals. The display shows recorded energy consumption usage, so that users know the exact underfloor heating costs. Up to 10 programmable periods can be set each day to maximise energy efficiency.

4iE SMART WI-FI THERMOSTAT

- Bright Porcelain DIAC0036 **£275**
- Onyx Black DIAC0034 **£275**

The 4iE learns how homeowners use their heating and the unique way their house reacts. It then automatically suggests ways to save energy, suggesting what temperature should be set when you are not at home and when you can turn the heating off early. The 4iE offers important advantages to the homeowner and trade professional, use your smartphone, tablet or computer to control your heating.

TEMPO DIGITAL PROGRAMMABLE THERMOSTAT

(for electric and hydronic underfloor heating up to 16A)

- Porcelain White DIAC0030 **£150**
- Piano Black DIAC0032 **£150**

Enables end users to choose the time as easily as they would with a watch or clock and quickly set their programs – heat on when they want it and off when they don't need it. It helps avoid wasting energy and achieves savings on utility bills.

Light and sound activated blue LED night lights illuminate your room, they are switched on by a simple click of fingers or a gentle clap once a sufficient level of darkness is reached. The light will last for 2 minutes before switching off automatically to conserve the battery life. 2 x AAA batteries required.

- Thermoset soft close seat
- Compatible with our Naples WC's
- Compatible with most universal WC's
- With built in battery powered LED light that is activated on sound

Wall Mounted Frame Systems

Whether you are updating your existing bathroom or designing the dream bathroom from scratch, wall hung frames bring a modern element allowing you to include the latest styles of wall hung WC's or basins.

Frames allow you to safely and securely fix wall hung products. They can provide support for wall hung WC's up to 400kg which includes a concealed cistern and basins up to 150kg. Frames can be used inside a partition wall, behind tiles and in furniture creating the illusion of space by freeing up the floor area, helping to create a minimalistic design that is easy to clean and stunning to look at. There is the added benefit of a choice of flush plates that are installed flat to the wall for a seamless and stylish finish.

For wall mounted WC's see pages 21 and 40.

WALL MOUNTED BASIN FRAME

Shower water systems

There are a few different types of water systems in homes in the UK, we can usually make some assumptions about the sort of water pressure each will give.

GRAVITY FED SYSTEM

This is usually a tank in the loft space or inside an airing cupboard. A basic guide to establish how much pressure it will deliver is how high the tank is above the tap or shower. If the tank is 2 metres above the level of the tap or shower, the water pressure will be 0.2 bar. If it is 5 metres, the water pressure will be 0.5 bar. Generally this type of system is low pressure however you can increase the pressure by installing a pump. It is recommended to seek advice from a qualified engineer or manufacturer before choosing your pump as these vary in performance.

COMBINATION BOILERS

These are high pressure systems and are usually set to operate between 0.8 to 1.5 bar, minimum and maximum pressure can be checked with the manufacturer however most boilers have a gauge to show what pressure it is operating at. Combination boilers have an integrated pump so if the water pressure is too low for your required application, adding another pump can damage the boiler.

SEALED/UNVENTED SYSTEMS

These are modern systems, if you have a hot water tank but you don't have a cold water tank (cistern) in your loft or garage, this is an unvented high pressure system. They are quite uncommon as they are more expensive however they can usually deliver around 3.0 bar of water pressure.

Undertile Wire System can be configured around any shape

Undertile Heating Mats

Mirrors

Backlit and LED mirrors have been independently tested for compliance with electrical equipment (safety) regulations.

These mirrors are IP44 water resistant rated and are suitable for use in zone 2 and outside zones in the bathroom. These mirrors must be mounted so that the sensor switch is a minimum of 150mm from an adjacent wall or obstruction to ensure function of the sensor switch.

If a mirror is mounted portrait, the sensor is located on the bottom right hand edge of the mirror. If mounted landscape, the sensor switch is located on the bottom left hand corner.

The sensor can be repositioned if necessary to avoid obstructions. Please refer to the product installation instructions for full details on how to do this.

- ZONE 1**
Electrical fittings in this zone require a separated extra low voltage and a minimum rating of IP44 (splash-proof).
- ZONE 2**
Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).
- OUTSIDE ZONES**
Electrical fittings in this zone require no IP rating (unless cleaned by water jets).

Terms and conditions

Your new bathroom products have been designed and manufactured to high standards and all come with a re-assuring manufacturers guarantee. Guarantees apply to manufacturing defects and do not apply to accidental damage, wear and tear or any item or component rendered defective by unsatisfactory planning, faulty installation, improper or negligent use or damage resulting from failure to maintain the product in accordance with the customer care instructions. Guarantees do not cover any product that has been modified or altered in any way.

Guarantees do not cover any product that is installed with a fault that would have been clearly evident before installation. In the interest of continuing design development and product improvement, we reserve the right to amend or adjust specifications at any time. Where an identical product is no longer available we will supply the nearest equivalent from our current range. Guarantees are for the original purchaser of the product, it may not be transferred to a subsequent purchaser of the premises in which the product is initially installed.

THESE GUARANTEES DO NOT AFFECT YOUR STATUTORY RIGHTS.
